

How to validate my experience?

Cnam-Enjmin offers three different schemes for you to validate your professional and personal experience and obtain a full or part diploma in your field of speciality. Please find information below on the VAE, VAPP and VES Validation Schemes. Feel free to contact us should you have any questions regarding the schemes.

VAE

Validation des acquis et de l'expérience

Validation of Skills and Experience

The VAE scheme allows candidates to **obtain a diploma, certificate or other qualification at Cnam-Enjmin on the basis of experience gained through previous professional, volunteer or trade union activities.**

This experience has led you to acquire skills and a certain degree of autonomy or responsibility in a given professional domain (management, administration, human resources, IT, industry etc.). Through the VAE scheme, we will check if your knowledge and skills correspond to all or part of those required for a professional certification (diploma, bachelor's, master's, PhD, engineering degree) or an institution-specific diploma.

The VAE scheme is open to any person, irrespective of age, nationality, social status and level of education, who has been in employment or in unpaid/voluntary work, either permanently or intermittently in a field relevant to the chosen diploma.

Candidates may only apply for the VAE scheme once per calendar year for the same qualification. For different qualifications, no more than three applications per calendar year may be submitted.

Please note that it is possible to make a group application to the VAE scheme with Cnam-Enjmin. The idea is to encourage career development in the interest of companies, branches or professions (by helping employees to obtain a qualification, encouraging mobility and enabling career change). Each participant must file the request individually, even if the action is part of a collective process.

[For individual VAE applications, see here.](#)

[For collective VAE applications, see here.](#)

Use Cnam's DIV@ platform to sign up and track your applications for the Validation Schemes. Click on the logo below.

2

VAPP

Validation des acquis personnels et professionnels

Validation of Personal and Professional Skills

The VAPP scheme allows candidates to **access a programme at Cnam-Enjmin without needing to have the specified entry requirement diploma**. This is due to the fact they have acquired an amount of skills, either through professional or personal means, that equates to this entry requirement diploma. For example, it allows applicants to access a bachelor's degree without having a *baccalauréat* equivalent high-school diploma.

[See more information about the VAPP scheme here.](#)

3

VES

Validation des études supérieures

Validation of Higher Educational Studies

The VES scheme allows candidates to **obtain all or part of a diploma if you have another higher education diploma or if you have previously studied other courses** (university, school, institute, training organisation, etc.) in a field related to the diploma in question and if the knowledge you acquired is deemed sufficient and corresponds to the educational requirements of the new diploma.

[See more information about the VES scheme here.](#)
