

Convert your work experience to a Master

Obtain formal recognition of the skills and knowledge you already possess to get a Master Degree of Cnam-Enjmin through the accreditation of prior experiential learning, called VAE in French

Test

VAE, is it for you ?

- You work in the video game industry for over **1 year**
- You became an **expert in your field** (Game Design, Sound Design, Visual Design, Ergonomics, Project Management, Software Design and Development...)
- You are **autonomous** ... while working with a **team project**
- You do not have **time** to go on training
- You do not have a **Degree** at this level and in this specialty
- You want to **be recognized** by your employer
- The Master Degree will allow you to **change your career path** (eg, **teaching** in this specialty)

You have marked at least the first box ?

Do not hesitate to inform you, VAE may interest you!

VAE is **an official act** that allows the recognition of skills acquired through experience.

A minimum of 1 year work or volunteer **experience**, in games and interactive digital media are needed to start a VAE.

Cnam-Enjmin supports you to develop and write your VAE file to be submitted to a jury.

Your prior experiential learning experience will be evaluated and the **jury** will issue **all or part of the Master Degree in Games and Interactive Digital Media recognized internationally**.
