A MAGELIS EVENT IN PARTNERSHIP WITH LA CHARENTE LIBRE NEWSPAPER

## 'Stars of the Creative Economy' Ceremony

Cnam-Enjmin is welcoming the 'Stars of Creative Economy' ceremony!

Magelis is organising, in partnership with La Charente Libre newspaper, an event that aims to highlight the dynamic nature and vitality of creative companies and associations in the Charente Department – ***Les Étoiles de l'Économie créative.***

This event will showcase the local players, regardless of their size, working in the fields of publishing, animation, video games, digital creation, film sets and sound, by rewarding their ability to create outstanding pieces of work, to innovate, adapt and positively contribute to the local area.

The event will revolve around a ceremony where prizes in 5 categories will be awarded: performance, innovation, creativity, inclusion and environment. A special jury prize will also be awarded to a worthy company or association, which will benefit from a marketing boost in the weekly professional magazine, Ecran Total.

The winner of each category will be chosen by a jury put forward by Magelis that is made up of representatives of the local economic network. They will benefit from a media visibility campaign, most notably by way of articles in the partner newspaper and on Magelis' website and social media.

This event hopes to inspire, unite and promote company spirit in the Charente Department in the creative and culture fields, all while celebrating local success stories.

# Les de l'É créa

June 4, 2026  
From 7pm

**Cnam-Enjmin**  
Atrium in the Nil Building
